Care & Maintenance

SmartStick® Repositionable Wall Covering Mural

As with any quality wall covering, proper care and maintenance will extend the life of the mural to help maintain its original finish. The mural should be washed regularly enough to prevent dirt and grime from accumulating.

The mural may be cleaned with mild soap and water. Do not use solvent based cleaning agents, lacquer thinners, nail polish remover, pine oil or cleaning agents containing bleach, which may cause discoloration over a period of time. It is recommended that cleaning be done with a soft sponge. Dry the surface with a soft, lint-free cloth or towel with a blotting action (do not rub).

In a permanent application, a topcoat of water based polyurethane will extend the life of the mural.

NOTE: Your SmartStick™ mural can be removed and reused without damaging your wall. Consider keeping the liner if you are thinking of re-using the mural in the future.
